Work Experience :

Projects:

- **Portfolio-Website:**

Link: [github](#)

Stunningly built portfolio website showcasing my front-end web development abilities utilising HTML, CSS, and JavaScript. exhibits finished projects with thorough descriptions and live examples and has a responsive layout. devoted to building captivating user experiences and ready to work in a dynamic web development team.

Technology stack: Frontend : HTML,CSS,Javascript

- **Weather -App:**

Link: [github](#)

A weather app created using HTML, CSS, Bootstrap, and RapidAPI can showcase your skills in front-end web development, API integration, and UI design.

Technology stack: Frontend : HTML,CSS,Bootstrap,Rapid Api

- **Amazon-Clone:**

Link: [github](#)

Using HTML and CSS, I skillfully created an Amazon clone to showcase my prowess in this area of web development. The project has a flexible layout, a well-organized design, and an accurate depiction of essential Amazon components. A team-driven atmosphere is what I'm want to offer my abilities to, and I want to develop useful online solutions.

Technology stack: Frontend : HTML,CSS

Android Projects(Applications):

Link: [github](#)

Having little interest in Android, these are tiny applications. Some of them offer navigational features and static pages.

Technology stack: Programming Language : Kotlin
IDE(Integrated development environment) : Android Studio

- ❖ Birthday Card App : **Link:** [github](#)
- ❖ Dice Roller App : **Link:** [github](#)
- ❖ Lemonade App : **Link:** [github](#)
- ❖ Tip Time Calculator : **Link:** [github](#)

Internship / Mentorship Program :

- Google Supported Virtual Internship Program 2022- Intern. [Mon,1 Aug 2022](#)
